

## Play It Again

The Eyeliners

You're in your suburban home  
Hanging on the telephone  
I'm in my room playing records

It takes me to another world  
Like holidays in the sun  
Or when I am looking for a kiss

When I sit in my room  
I listen to it over and over

[Chorus]

Play it again - I think I'm obsessed with you  
Play it again - I can't get enough of you  
Play it again - wearing out my sound system  
Play it again - that song that I can't get off my mind

I met you in my wild youth  
That's when I fell for you  
But you were 2000 light years away

Well I guess I always knew  
I'd have to say goodbye to you  
Why is it always this way?

When I'm driving in my car  
I listen to it over and over

[Chorus]
