You're in your suburban home
Hanging on the telephone
I'm in my room playing records

It takes me to another world Like holidays in the sun Or when I am looking for a kiss

When I sit in my room
I listen to it over and over

[Chorus]

Play it again - I think I'm obsessed with you
Play it again - I can't get enough of you
Play it again - wearing out my sound system
Play it again - that song that I can't get off my mind

I met you in my wild youth That's when I fell for you But you were 2000 light years away

Well I guess I always knew I'd have to say goodbye to you Why is it always this way?

When I'm driving in my car I listen to it over and over

[Chorus]
