

Talk Of The Town

The eyes of a traitor

Failure

How did I never see it before

And I`m back again begging for more

Before I realized that you would be my demise

I despise you as if that's a

Fucking surprise to you

Your social ladders failing down

And your the talk of the fucking town

I would have done anything for you

I took a look into the real you

And now I never

Wanna see your fucking face

Fuck you

Was there ever a choice

I'll never surrender to these

Feelings I have rendered

You've Got A Major

In head fuck and you aint afraid to use it

Your loose this

Motherfucker

Your done
