## **Rock This Place**

## **The Fabulous Thunderbirds**

Well, I was sitting in my room playing on my old guitar Thinking about you, baby acting like a movie star When the telephone rang They said you're at the local bar

So I jumped and ran as fast as a man can run Don't know where but the night was made for fun 'Cause if I ever loved a woman, baby You're the only one

So, let's rock this place Let's rock this place Let's rock this place Till everybody says it's alright

Let's rock this place, let's rock this place I want a whole lot of gimme, gimme 'Til the whole room shakes and shimmies Let's rock this place, rock this place tonight

When I saw you in the corner I knew you was waiting for me Well, you had the look about you You surely make a blind man see

And if you froze a million dollars You'd give it to me all for free

So, let's rock this place Let's rock this place Let's rock this place Till everybody says it's alright

Come on let's rock this place Let's rock this place I want a whole lot of gimme, gimme Till the whole room shakes and shimmies

Let's rock this place Rock this place tonight

Come on let's rock this place Let's rock this place Let's rock this place If everybody says it's alright

Let's rock this place Let's rock this place I want a whole lot of gimme, gimme Till the whole room shakes and shimmies

Let's rock this place Rock this place tonight Yeah, let's rock this place Rock this place tonight
