

Hymn Of Sanity

The Faceless

Bring forth oh glorious knowledge and crown it king of
all
The Earth is round, surely this I know
For irrefutable evidence tells me so
Slowly we approach it
SCIENCE IS RISEN!
It rules in Earth and sky
Now we live no more to die
SCIENCE IS RISEN!
The framework of veracity
This I seek for clarity
Reveal the path to certainty
PRAISE TO SCIENCE ETERNALLY!
"Brothers and sisters! Free your bodies
From the contempt of a soul.
Let it die with archaic ideals.
The only heaven and hell
Are the ones you make for yourself right here and now.
ACCEPT SCIENCE INTO YOUR LIFE!"
It rules in Earth and sky
Now we live no more to die
SCIENCE IS RISEN!
