

The Ancient Covenant

The Faceless

A treaty between alpha and omega beings
Summoning a darkened era upon Earth
Ancients receive immortality
The rest shall be servants of the gods

Slow-Poisoning xenobiotic substances will enslave your sick
A pact of horrifying consequence
A new alteration
Humanoid mutation of alien seed

The agenda implemented through genetic infiltration
Sinister
Undignified
Promising unearthly intellect
Feeding on the selfishness of man

Forever

The ancient covenant is sealed with the blood of unsown (tainted) loins

Begin integration of the hybrid population

Ancients join the ranks of the gods
For their curses of destined generations
