

Salt My Doom

The Faint

We take a lesson from the enemy cause,
Can't take the pressure when the pressure is on,
We're all plants from the seeds of space,
We can't hide from the taste of fate.

Stamp this mission, drink this gloom,
Drown my summit, Salt my doom...

Resist, decline, deflect, denial, defect, defeat, disown,
deny, demand, dissolve, regret, ignore, embrace,
The fault of life contains the truth...

Cannot do it... the truth.

We get depressive in the heat of it all,
We make less of everything that we love,
We're all plants from the seeds of space,
We can't hide from the taste of fate.

Stamp this mission, drink this gloom,
Drown my summit, Salt my doom...

Resist, decline, deflect, denial, defect, defeat, disown,
deny, demand, dissolve, regret, ignore, embrace,
The fault of life contains the truth...

Stamp this mission, drink this gloom,
Drown my summit, Salt my doom...

Cannot do it...
