

## A Figure Walks

The Fall

A figure walks behind you  
A figure walks behind you  
A shadow walks behind you  
A figure walks behind you

Days of booze and roses  
Shine on us, free us all  
Who is not irascible  
He is no genius

A figure walks behind you  
A figure walks behind you  
A shadow walks behind you  
A figure walks behind you

The old golden savages  
Killed their philosophers  
Thought brought the drought about  
Something followed me out  
Goes out again

A figure walks behind you  
A shadow walks behind you  
A figure walks behind you  
A shadow walks behind you

And if it grabs my coat tail  
I will turn and hit it  
It may remove the pegs  
Keeping my eyes open

A figure walks behind you  
A shadow walks behind you  
A figure walks behind you  
A shadow walks behind you

It's got eyes of brown, watery  
Nails of pointed yellow  
Hands of black carpet  
It's a quick trip to the ice house  
A quick trip to the ice house X 3

A figure walks behind you  
A shadow walks behind you  
A figure walks behind you  
A shadow walks behind you  
You X 7

A figure walks behind you  
A shadow walks behind you  
A figure walks behind you  
A shadow walks behind you

You X 3

And tales of terror  
Which my father told me

They never scared me  
But not only is it the blind  
Who cannot see  
That figure behind you  
Behind you x 2  
You x 2

That figure kept on walking  
Behind you

There's a man on my trail X 4  
He's also behind you  
Behind you X 4

That figure kept on walking X 4  
Behind you X3

A figure walks 3
