

Butterflies 4 Brains

The Fall

Got a reason to live, got a reason
For brains, butterflies for brains

That's it
Whizz bang butterflies for brains
She's got
Whizz bang butterflies for brains

Would walk ten country miles
In a fat person's moccasin
Butterflies for brains

It comes,
Has got,

The four of us are dying
I'm very concerned about school buildings
Got a reason to live, got black-cloud aura

She's got....
Here it is....
That's it....
