

Don't Take The Pizza

The Fall

All that is gone is shredded by the auto-man
The glass ceiling it did shake and then it did undulate
Don't take the pizza off me
Slumber I told yer
Don't take the pizza off me
Birmingham nonsense from city there once was bronze
QED each day
QED is quid each day
Don't take the pizza off me
Don't take it...
Your brain splits each day from information anxiety
From me pinch I cringe
You dopey randy acid clone
Don't take the pizza off me
Slash fat cats
See vamp watch out
Get rid of straight away
Don't take the pizza off me
Don't pick up mind track
