One Day

When I first met you You didn't go anywhere 'Cept for the drama corporation Of co-op theatre

Skirting from a course Bovver boots on Vacuum breath equals We never close

But one day you'll find out That you lost a good man And one day you'll wake up And find you lost a good man

Transparent or not You'll never see my like again I'm talkin about me No malice So transparent

When he walks When he walks again All reduced to cost-price Manual for deceit Indiscriminate take out Indiscriminate give out We never close Never ever close

You're a snake pit And one of these days you'll find out That you lost a good man And one of these days you'll wake up And find you lost a good man
