

## Blind

## The Family

Blind boy although you wish you could see  
I've often thought if you could be me  
Have eyes to see pictures of people in pain  
And it looks like I'll see them again, again  
Deaf man although you sure want to hear  
Would you turn your ears to shots that are near  
Sounds of a city in near civil war  
And it seems like you'd hear it some more  
And here we sit now with nothing to do  
Just give out a song and hope it rings true  
To those not so deaf but lead us so blind  
May it soon be approaching their time, time
