

# Home Sweet Home

The Farm

My world's a roller coaster,  
And my life's a traffic jam  
All this messing even close to being who I am

I've been dreaming care for nana  
Catching crawl dance by the creek  
But I'm stuck here in this prison  
Cellphones and city streets

I need a little time  
I need a little space  
I need a little gone  
Little out of this place  
A wanna get back  
Where I can breathe, where I feel free, yeah

Take me back I've been away too long  
Take me back to my home sweet home

I can smell my mama's cooking  
And the sweet magnolia trees  
Nothing like summer time on a summer night  
I can hear those crickets calling me

I need a little time  
I need a little space  
I need a little gone  
Little out of this place  
A wanna get back  
Where I can breathe, where I feel free, yeah

Take me back I've been away too long  
Take me back to my home sweet home

I need a little time  
I need a little space  
I need a little gone  
Little out of this place  
A wanna get back  
Where I can breathe, where I feel free, yeah

Take me back I've been away too long  
Take me back I've been away too long  
Take me back I've been away too long  
Take me back to my home sweet home

Kissing crawdads on the front porch swing,  
Catching butterflies on the first day of spring  
Swaying along while the church choir sing  
Take me home, take me home  
Sneaking around on a full moon night  
Making out for the very first time  
Those were the best days of my life.
