

From Now On

The Features

Dreamed last night about a time and place
Where from our troubles we had escaped
I held your hand then I felt complete
As you turned and said to me:

From now on, from now on we'll be
You and me, we will be
From now on, from now on we'll be
You and me, you and me, we will be

Years went by and nothing changed
The love we shared just stayed the same
As hair grew grey on top of our heads
Every night I'd quietly say:

From now on, from now on we'll be
You and me, we will be
From now on, from now on we'll be
You and me, you and me, we will be

Only a dream...
Only a dream...
Only a dream

From now on, only a dream
From now on, only a dream
From now on, only a dream
From now on, you and me, we will be
