

# The Gates Of Hell

## The Features

Stand in line forever  
Give our tickets to the man  
Watch him pull the lever  
We're riding in a can  
Through the gates of hell, girl.  
Through the gates of hell, girl  
Through the gates of hell, girl  
Through the gates of hell.

Satan's in the corner  
Hanging by a wire  
Started moving closer  
As we squeak by wooden fire  
Through the gates of hell, girl.  
Through the gates of hell, girl  
Through the gates of hell, girl  
Through the gates of hell.

You may be opposed  
But I will be the instigator  
Trying hard to steal a kiss  
From your lips tonight

Everybody knows where you go for bad behavior  
Now I got my arms around you  
Heaven is divine

Through the gates of hell, girl  
Through the gates of hell, girl  
Through the gates of hell, girl  
Through the gates of hell.
