

## Mary

### The Feelers

Mary hasn't come alive  
Well please take away pain  
I've been walking in the rain here without you

You've already felt this  
Well now come and taste this  
Maybe you'll surprise yourself and like it

Miracles come and fantasies go  
I'll take you in it nice and slow  
Well I am waiting for the rain and may you like it

I wished you never gone out today  
All you wanna do is run away  
Maybe today you'll like it

Well I'm just waiting for the rain  
Maybe you'll come again  
And maybe some day you'll like it  
I don't know

Mary hasn't come all right  
Well please take away my pain  
I've been waiting in the rain here without you

I'm just waiting for the rain to come  
I'm just waiting for the rain to come
