## **The Feelers**

## **Pressure Man**

Take the hammer Smash the glass Take the glass Cut the mother earth Opens up And sucks you down It sucks your sorry ass into the ground

Are you pressure man or prey Do you suffer through the gravity Are you predator or prey Will you suffer my reality Are you pressure man or prey Do you suffer through the gravity Are you pressure man or prey

Well go and get me another Make my day And will flower crosses wash it all away And follow the lines and the arrows To find your way And will sweeping bands all take you pain away

Are you pressure man or prey Do you suffer through the gravity Are you predator or prey Will you suffer my reality Are you pressure man or prey Do you suffer through the gravity Are you pressure man or prey

Sometimes when you come for me I will run away Sometimes when you come for me I will run away

Are you pressure man or prey Do you suffer through the gravity Are you predator or prey Will you suffer my reality Are you pressure man or prey Do you suffer through the gravity Are you pressure man or prey
