

Supernova

The Feelers

When the favours come around
I wanna be the first to receive them now
When the shadows become the light
I wanna be the first to see them now

And we're moving a little closer now
And our love is like a shadow on the knife
And we're moving so much closer now
And our love is like a supernova
Our love is like a supernova

When the laughter turns to tears
I wanna be the first to taste it now
When I lose myself in the crowd
I want you to be the one to find me now

And we're moving a little closer now
And our love is like a shadow on the knife
And we're moving so much closer now
And our love is like a supernova
Our love is like a supernova

Yeah we're moving a little closer now
And our love is like a shadow on the knife
And we're moving so much closer now
And our love is like a supernova
Our love is like a supernova
