

Find A Way

The Feelies

Headed down a road
Find someplace to hide
Meet me at the door
Let me come inside
How could I forget
Wrapped up in your arms
Tangled up in you Isn't very hard

Could we really find a way around it?

Time is running out
Hour's getting late
The sun is going down
No time to hesitate
Shelter me tonight
Take me in your heart
Safe from anything
Tearing us apart

Maybe we could find a way around it
