

Invitation

The Feelies

Come on, everybody, come along
Don't know where we're going or how long
Watch out for the things along the way
Careful don't get bitten by the road

Take me there
Take me away
Take me there

Going to a party on the lawn
Leaving in the morning one by one
Would it really matter anyway?
Would you really miss them when they're gone?

Take me there
Take me away
Take me there
Take me away

Away

Try and find the way, it's getting dark
Take me there before it gets too hard
Watch out for the things along the way
Try to find the path before we start

Take me there
Take me away
Take me there
Take me away

Away
