

## It's Only Life

The Feelies

What does it mean  
What can you do about it  
What can you say  
You don't even know about it  
Nobody talks  
Nobody listens  
Well look around  
Yeah look out your window  
They're having a ball  
Having a party  
Well come inside  
You can do what you like  
Well it's a nightmare  
It's all negative  
Nothing matters  
And what if it did  
You could lock your doors  
Close all your windows and  
Hide away

It's only life
