

It's Only Life

The Feelies

What does it mean
What can you do about it
What can you say
You don't even know about it
Nobody talks
Nobody listens
Well look around
Yeah look out your window
They're having a ball
Having a party
Well come inside
You can do what you like
Well it's a nightmare
It's all negative
Nothing matters
And what if it did
You could lock your doors
Close all your windows and
Hide away

It's only life
