

## Morning Comes

The Feelies

Way before your call  
I don't mind at all  
Where you want to be  
That's all right by me  
You know things are getting better  
It will be sooner than you thought and  
I know we'll get it all together  
You'll see all you really wanted

Night comes in my room  
Could not be too soon  
Morning with the light  
Then another night  
You know things are getting better  
It'll be sooner than you thought and  
I know we'll get it all together  
You'll see all you really wanted

You know things are getting better  
It'll be sooner than you thought and  
I know we'll get it all together  
You'll see all you really wanted  
You know  
That's right  
This time  
All right
