

Time Is Right

The Feelies

Gotta do something
Get in with the crowd
Do what you want
For crying out loud

Another trip, another key
Another dip into the sea
Of endless possibility
The time is right
For us to feel the

Time
Right
Now
Tonight

Stay out of trouble
Take care of your name
Playing it forward
Stay in the game

Find a way without a plan
Make each day as best we can
Something for the world to see
The time is right
For us to feel the

Time
Right
Now
Tonight

Time
Right
Now
Tonight

All right
