

When You Know

The Feelies

Every time I see
Looking back at me
See the signs of life
Wonder what's inside

Open your door
One more time
It's not that
Hard to find

When you know

Try with all your might
He can't take all that
Maybe then you'll know
Long before we go

Open your mind
Let it be
It's not that
Hard to see

When you know
When you know
When you know
When you know

Open your door
One more time
It's not that
Hard to find

When you know
When you know
When you know
When you know

When you know
When you know
When you know
When you know
