

# Fall Like Rain

## The Feeling

Will you be a saint?  
This boy needs a lick of paint  
All the years begin to show  
And I can feel them in my bones  
In my bones  
In my bones

Will you be a doll?  
Check the plugs and change the oil  
Sure, it's been a long, hard night  
But I'm with you, I'll be alright

You fall like rain and make me new  
Fall like rain 'til the grass comes through  
Sing for me and I'll sing for you

Will you be my pope?  
This boy needs a little hope  
Give me heaven full of whores  
Give me love and I'm all yours  
I'm all yours  
I'm all yours

So fall like rain and make me new  
Fall like rain 'til the grass comes through  
Sing for me and I'll sing for you

I'll tell you this  
A love that's true  
Is more than someone  
Just to hold on to  
It falls like rain  
'Til the grass comes through  
What was broken  
Can be made like new

So fall like rain and make me new  
Fall like rain 'til the grass comes through  
Sing for me and I'll sing for you

I'll tell you this  
A love that's true  
Is more than someone  
Just to hold on to  
It falls like rain  
'Til the grass comes through  
What was broken  
Can be made like new
