The Feeling

Half past eight and you're late
Coffee's cold, what a state
They've dragged you down

Fate's got you scraped
Work to death
Can't you turn them words around?

Is it really what you want?
Is it really what you need?
Is it really what you choose, my dear?

Is it really what you want?
Is it really what you need?
Is it really what you choose, oh, oh?

The world is in your hands
The world is in your hands
The world belongs to those of us
Who still believe we can

And it matters what you do
Though they all look down on you
'Cos it's better that you've come from nothing
Than nothing comes from you

Come with us, come with us
Come with us, come with us
Join with us, join with us
Join with us, join with us

Don't make a sound
Count your pennies
Count your pounds
There's no way out

What will you do
When all love gives up on you?
Can't turn around

Is it really what you want?
Is it really what you need?
Is it really what you choose, oh, oh?

The world is in your hands
The world is in your hands
The world belongs to those of us
Who still believe we can

And it matters what you do
Though they all look down on you
'Cos it's better that you've come from nothing
Than nothing comes from you

Come with us, come with us
Come with us, come with us
Join with us, join with us
