## Kettle's On

**The Feeling** 

I turn on the tap and run some water Flick a little switch on the wall I'm hoping you remember what I taught ya Hoping you remember me at all

I'm strong but I feel like a mouse when you're gone I'm weak but I'll take on the world when you're here With me, with me

Can't you see you're in the wrong place Will you please face it and come home When I think about you're sweet face I can't wait for you to come home I can see you got a real taste but that champaigne but its all gone Come home, the kettles on

I've got a little something on my mind To keep it to myself isn't really very kind Pouring out my heart isn't usually my style But you gave me an inch so I'm gonna take a mile You see

I'm strong but I feel like a mouse when you're gone I'm weak but I'll take on the world when you're here With me, with me

Can't you see you're in the wrong place Will you please face it and come home When I think about you're sweet face I can't wait for you to come home I can see you got a real taste but that champaigne but its all gone So come home, the kettles on

Yea yea yea

Can't you see you're in the wrong place Will you please face it and come home When I think about you're sweet face I can't wait for you to come home

Can't you see you're in the wrong place Will you please face it and come home When I think about you're sweet face I cant wait for you to comeeeeeeeeeee home
