

Love It When You Call

The Feeling

I found a switch, you turned it on
I hit the ditch, you carried on
I was so near, now you're so far
Are you quite sure just who you are?

Oh I know you could choose a friend
But you don't seem to have the time
Oh and I, I wonder if you ever get to say what's on your mind
Well, take a little time, come on, take a little time

I love it when you call, I love it when you call
I love it when you call but you never call at all
So what's the complication? It's only conversation
I love it when you call but you never call at all, whoa
He loves it when you call, he loves it when you call, ah!

Remember me? I used to be
Your best time buddy that you couldn't wait to see
We're getting old, it takes a toll
And hearts getting broken leads to people growing cold

Oh I, I'm flipping with a coin that's got a tail on either side
Oh and I, I'm gonna be the one who makes you stop and realize
You could have it all, yeah, we should have it all

I love it when you call, I love it when you call
I love it when you call but you never call at all
So what's the complication? It's only conversation
I love it when you call but you never call at all, whoa
He loves it when you call, he loves it when you call

Yeah, I wonder were you been
Yeah, and I wonder who you've seen
Yeah, I hope you find your dream
When you do I really hope it's all it seems

I love it when you call, I love it when you call
I love it when you call but you never call at all
So what's the complication? It's only conversation
And I love it when you call but you never call at all, woo!
