

Set My World on Fire

The Feeling

You say you need me then you don't,
I say I'll leave you but I won't,
We all wanna be free but not alone.

Then off you go just like before,
I hear you slam the taxi door,
Hope you find what you're looking for

We're doing wrong, yes I know I'm doing wrong,
Cos I can feel you in my heart, every time we part

You set my world on fire
I love you more every day
You can run you can run but don't stay long
I love you more every day

You set my world on fire
And I don't care what you say
You can run but you know where you belong
I love you more every day
What more can I say
(Set my world on fire)
And I don't care, I don't care what you say
I love you more, I love you more every day.

There's still that smell you always wear
Just hangs like silence in the air
Holds on when you're not even there

Nobody has to understand
We hold our hearts within our hands
Sometimes it's more than we can stand

We're doing wrong, yes I know I'm doing wrong,
Cos I can feel you in my heart, every time we part

You set my world on fire
I love you more every day
You can run you can run but don't stay long
I love you more every day

You set my world on fire
And I don't care what you say
You can run but you know where you belong
I love you more every day
What more can I say
(Set my world on fire)
And I don't care, I don't care what you say
I love you more, I love you more every day.

Hope you're wrong, cos I know I can't be wrong
Cos I can feel you in my heart, every time we part

You set my world on fire
I love you more every day
You can run you can run but don't stay long
I love you more every day

You set my world on fire
And I don't care what you say
You can run but you know where you belong
I love you more every day
What more can I say
(Set my world on fire)
And I don't care, I don't care what you say
I love you more, I love you more every day.
