

You'll See

The Feeling

Do you wanna play this game?
Do you wanna start again?
Do you wanna risk it?
Do you wanna play this game?

Do you wanna play this game
Like it's gonna be the same?
Do you wanna save me
Just to let me down again?

God loves the mighty ones
To see them falling
God loves to shine a light
You'll see it all when

Somebody treats you like
You treated me
When someone treats you like
You treated me
That's when you'll understand
That's when you'll see
When someone treats you like
You did me

Do you wanna play this game?
Do you wanna start again?
Do you wanna risk it?
Do you wanna play this game?

Please remember
We're just two colours that ran together
And just like paint we're changed forever
Now we'll never be the same

God knows how hard I tried
But I'm only human
God knows that I was kind
And so will you when

Somebody treats you like
You treated me
When someone treats you like
You treated me
That's when you'll understand
That's when you'll see
When someone treats you like
You did me

God loves the mighty ones
To see them falling
God loves to shine a light
You'll see it all when

Somebody treats you like
You treated me
When someone treats you like
You treated me

When someone breaks you down
Cuts you in three
When you love someone like
I loved you
You'll see
