

# All Is Fair

The Fixx

Man as a beast  
Came down from the trees  
Crawling around  
Spread his disease  
Was up on the rocks  
Playing with fire  
Inventing his needs  
To quench the desire

Blood on his hands  
Love on his mind  
Hell as a future  
Leaving Heaven way behind

All is fair in love and war (na)  
Kiss me you fool it's love that we're all dying for  
All is fair in love and war (na)  
Head for the hills, who knows what all this fighting's for?  
Man is a beast

Shame at the feast  
Too much to eat  
Throw out the waste  
At the beggar's bare feet  
Aim for the Moon  
Shooting the stars  
Insanity roaming the streets  
But the sane drive new cars

Blood on his hands  
Love on his mind  
Selling the future  
The debts are left behind

A-oo

Up in the the alter zone  
Man is a beast  
Down in his structured home  
Still man is a beast  
Up on the rocks  
Playing with fire  
Inventing his needs  
Oh, quench his desires

All is fair in love and war  
Kiss me you fool it's love that we're all dying for  
All is fair in love and war (na)  
Time and patience always find the open door

Wo-ho, man is a beast  
Man is a beast
