

And the feeling just ain't right  
As I stare into the light  
What a time to take a fall  
I can't stand the night

And it's long in the tooth  
But short in foresight  
It's all that I have  
And so I'll hold on tight

So I live  
That's about all I can say  
I breathe nearly every day  
Some say that it's better this way  
That I live, I live

Take a chance to hear the call  
Make a stand to be so tall  
'Cause it's all that you have  
Like winter to follow the fall  
Like winter to follow the fall

So I live  
That's about all I can say  
I breathe nearly every day  
Some say that it's better this way  
That I live, I live  
Wo oh Wa oh, I live  
Some say that it's better this way  
That I live, I live

And the feeling just ain't right  
As I stare into the light  
What a time to take a fall  
I can't stand the night

And it's long in the tooth  
But short in foresight  
It's all that I have  
So hold on tight  
So hold on tight  
So hold on tight  
So hold on tight

So I live  
That's about all I can say  
I breathe nearly every day  
Some say that it's better this way  
That I live, I live  
Wo oh Wa oh, I live  
Some say that it's better this way  
That I live, I live
