

I'm life, watching
I think I can
Measure the flow
I could swim that river

I'm fast breeding
I think I have
No cruise control
I can't stop the spiral

I'm sand wave, blown in the air
I come down in raindrop
I'm time passing
I think I know we'll meet again
We can climb the mountain

I'm life, watching
I think I can
Measure the flow
I could swim that river

I'm fast breeding
I think I have
No cruise control
I can't stop the spiral, spiral

I'm life, watching
I think I can
Measure the flow
I could swim that river

Take a breath, life
Feel it stretch, life
Life

I'm sand wave, blown in the air
I come down in raindrop
I'm time passing
I think I know we'll meet again
We can climb the mountain

I'm life, watching
I think I can
Measure the flow
I could swim that river

I'm life, watching
I think I can
Measure the flow
I could swim that river
