

Lost Planes

The Fixx

When you're hanging from a parachute
The whistling wind might play your flute
So forget it
Lost traffic

Someone said you couldn't fly the plane
So I guess this journey's all in vain
So forget it
Lost traffic

We're on a lost plane
Should've taken the train
We're on a lost plane
So forget it

Flying high but your fuel is low
How far can a missing plane go
So forget it
Lost traffic

Tell you that you're flying radar
But it's that much safer to take that car

We're on a lost plane
I should've taken the train
We're on a lost plane
So forget it
We're on a lost plane
I should've taken the train
We're on a lost plane
So forget it

We're on a lost plane
I should've taken the train
We're on a lost plane
I should've taken the train

We're on a lost plane
I should've taken the train
We're on a lost plane
So forget it

So when you're hanging from a parachute
The whistling wind might play your flute
So forget it
Lost traffic

Tell you that you're flying radar
But it's that much safer to take that car

We're on a lost plane
I should've taken the train
We're on a lost plane
So forget it

We're on a lost plane
I should've taken the train

We're on a lost plane
So forget it
We're on a lost plane
I should've taken the train
We're on a lost plane
