Sunshine warming the small of my back Whatever virtues I lack
You can't see until I move
Until I move in the shade
Sunshine in the shade
Sunshine in the shade
Sunshine in the shade

But then inside
Sometimes I feel so cold
Catching these self thrown blows
But enough of the future I see
A shadow belonging to me
Sunshine in the shade
Sunshine in the shade
Sunshine in the shade

Every man climbs a mountain With the hope to make a stand Every man makes a mountain of his life A masterplan

Only hope
Light in the dark
Only hope
Light in the dark
Gives me hope

Sunshine in the shade Sunshine in the shade Sunshine in the shade The shade of life Gives me hope of Some time and place
