

Touch

The Fixx

Touch
Touch
Touch

This was a night like no other night
There were campfires on the hill
Our hearts were full of wonder
Everything felt so right we signaled eye to eye
The air was warm and sweet like your touch
So sweet and tender
Touch

This was a moment to be frozen in time
All the passion and the freewill
A chance to redeem our lives
Touched by the union
I thought isn't man kind
There is sweetness in the fruit
And the fruit makes the wine
In Your touch, oh
So sweet and tender
Touch

Maybe tonight oh so sweet and tender
Sweet and tender touch
Sweet and tender

Well this is the best of us
and we offer it to you
It's a celebration of all our lives
And I hope it gets us through

Some try hard to believe
Others have easy faith
The optimist and the skeptic
Both have a role to play
Like your touch oh so sweet and tender
Maybe tonight oh need is it a wonder
Don't feel right; the miracle and the wonder
Sweet sweet and tender
This is the best of us and we offer it to you
Sweet sweet and tender
Sweet sweet and tender
This was a night like no other night
Our hearts were full of wonder
And everything felt right
The air was warm and sweet baby
Yeah like your touch
Your touch we all need
Sweet and tender touch
And the owl was watching
And the world was howling
