

A Kiss From Your Lips

The Flamingos

A kiss, from your lips, changed my whole life around
A kiss like yours, no where can be found
Gee gee how blest I am, to have a kiss from your lips
A kiss from your lips, holds a story still untold
A kiss from your lips, more precious oh than gold
Gee gee how blest I am to have a kiss from your lips
I've loved for many years
And kissed oh oh a thousand lips
But nothing went right, until that night
I slipped a kiss from your lips
A kiss from your lips, changed my whole life around
Gee gee how blest I am, to have a kiss, from your lips
