A Kiss From Your Lips

The Flamingos

A kiss, from your lips, changed my whole life around A kiss like yours, no where can be found Gee gee how blest I am, to have a kiss from your lips A kiss from your lips, holds a story still untold A kiss from your lips, more precious oh than gold Gee gee how blest I am to have a kiss from your lips I've loved for many years And kissed oh oh a thousand lips But nothing went right, until that night I slipped a kiss from your lips A kiss from your lips, changed my whole life around Gee gee how blest I am, to have a kiss, from your lips
