

## Blue Planet

## The Flower Kings

Got a perfect view  
From here in the voyage window room  
Blue planet, sleeping beauty  
The place that we call home  
From here you can detect no borders  
To me it looks the same  
One world, one until under the sun

Let's leave it, don't get closer  
I fear what we might find  
Up from here it looks so peaceful  
From the innocent blue sky

There's a view of constant beauty  
That time and man can't change  
Just mind to keep the distance now  
And your impressions will remain  
You want to keep the dream forever

You never wanna leave  
I wish that everyone could see  
And feel the way I feel

The more you look, the more you try  
The more you free the inner eye  
There's a mountain we could climb

Got a perfect view from here  
From a window in the sky  
You ain't going nowhere now  
You want but cannot fly  
Sometimes it feels like god has left us  
But you never can be sure  
You're stuck with us and your dreams  
Inside revolving (hotel) doors
