

Lucy Had A Dream

The Flower Kings

Lucy had a dream last night
Lucy dreams in black and white
Lucy was left there on her own
Out in the field, out in the cold
She had her summerdress, no shoes
She had no plan, she had no clue

Maybe the angels beamed her down
Maybe she hurried out of town
Leaving a family behind
Is someone missing her?

God knows where little Lucy goes
She's alone in her dream in the field
The men just moving in and out of her life

Just to prove she's not dead, she's alright

Lucy has a dream last night
Lucy is beyond the skies
Lucy is higher than a kite
In the back of 60's Cadillac
She has a stranger in her arms
She ain't going back home until dawn

God knows where little Lucy goes
She's alone in her dream in the field
The men just moving in and out of her life
Just to prove she's not dead, she's alright
