

## Road To Sanctuary

The Flower Kings

Walk with me as long as we're together  
Get your tickets to what is forever  
Trades in loyalty and disengagement  
First make sure that your business is hellbent

Then you are alone with the ghosts of the night  
One Road may lead you to Sanctuary  
Seeking the price of your heart and soul  
You're still in doubt!!!

Step aside and you look at this rat race  
Get some more to stuff in your fuzzface  
Clear contender for wasting the best years  
Your goldplated bones may rattle forever

Then you're alone with the dogs at the gate  
One road may lead you to sanctuary  
They'll still be playing Hockey in Hell  
You're still in Debt!!!

On the fields of Green and Gold  
On the hills out in my mind  
that we watched and we played and we danced  
that were pictured in the Sun

Words, thoughts & play that you constantly gave to me  
Did I stop - did I stay - did I think  
what the world would be?

How I've tried to define  
what is love, in my mind  
As we pass what is now  
this "now" is suddenly history  
Sliding thru the days  
making notes of a different kind  
Did I stop - did I pray - did I love, Unconditionally

How hard to face you never see a breakingpoint  
There's nothing such as finalized, we all must carry on  
If time is constant  
rulers set the time, the time of day  
But it hurts and it aches but it shines  
and it celebrates!!!
