

Blue Life

The Flys

I walk the streets at night
And stumbled 'cross two friends of mine
I see their faces stained by in the coffee grinds
Black lllllllifeeee
Cant I now defy you
In this black life
Black knife stabs me in the back
I reaaalizeeee

I sense their coming to me everyday most all the time
I feel the predator he knows my name by now allright
God knows I've taken all that I can stomach up to now

But from the corner of my eye I dreeam about
I want a blueeeee lllllllife
Basking in the light
I want a blue skyyyyyyyy
Oh not a cloud in sight
Want a blueee lllllllife
No need for me to hide
From this black llllllllllght
Do you hear me noooooow

(gotta turn around)

I still I stand here unemployed and overqualified
Keeper of the king the strychnine in the troughs tonight
Black life
Cant I now defy yooou in this black life
Black knife stabs me in the back
I reaaalizeeee

I sense their coming to me everyday most all the time
I feel the predator he knows my name by now allright
God knows I've taken all tat I can stomach up to now
But from the corner of my eye
I dreeam about
I want a blueeeee lifeeeeee
