

Medicine

The Fold

Let's get to the point
Let's get to this condition
Let's get to the point
Let's get to this condition

Here we go again
We're taking medicine to take the pain away.
To get this gone is what I need so badly
But they put the prize behind my pride
To save one to kill the other

Why will you think of me now
Why will you think of me now

Put your favorite record on
Go straight to your favorite song
I've seen you laugh and cry
Now I gotta see you dance

Let's get to the point
Let's get to this condition

Here we go again
this day's been heavy as a hospital
I know you never were one for the bad news
you never did have the time
But out of the corner of my eye
you turn and say
"You can get on up or you can get on down
But you can not just stand around"

What will they think of us now
Now that all i can do is try to make this better

Put your favorite record on
Go straight to your favorite song
I've seen you laugh and cry
Now I gotta see you dance

Let's throw this day
Let's give this another chance
I've seen you laugh and cry
I wanna see you dance
I wanna see you dance

You can get on up or you can get on down
But you can not just stand around
You can get on up or you can get on down
But you can not just stand around

You can get on up or you can get on down (Let's get to the point)
But you can not just stand around (Let's get to this condition)
You can get on up or you can get on down (dance)
But you can not just stand ah! (let's get to the point)

Put your favorite record on
Go straight to your favorite song (favorite song)
I've seen you laugh and cry (oh)
Now I gotta see you dance

Put your favorite record on (record on)
Go straight to your favorite song (favorite song)
I've seen you laugh and cry
Now I gotta see you dance

Let's throw this day away (day away)
let's give this another chance (another chance)
I've seen you laugh and cry
Now I want to see you dance
I want to see you dance
