

Maybe I'm Wrong

The Forces of Evil

La La La,
La La La,
La La La La La La La La La,

La La La,
La La La,
La La La La La La La La La,

Well every time that I think I'm going to do it
I never make it through it,
And every time that I hold my head up high
Somebody punches me right in the eye,
You know its hard to see,
But the future never looks that good to me,
I know I shouldn't talk this way

Maybe, its alright and I'm the one that's wrong
Maybe, if I die this sadness will be gone

There have been times when, I could o-most say
Things were going my way,
But as I felt my confidence rise, it will crumble right before
my eyes
I could never belive in me,
cause I can never make things how there suppose to be,
I'm gonna blow it every time

Maybe, its alright and I'm the one that's wrong
Maybe, if I die this sadness will be gone

Its in my head (its in my head),
That I'm better off dead

Maybe, its alright and I'm the one that's wrong
Maybe, if I die this sadness will be gone
