Inches and Falling

I love Love I love being in love I don't care what it does to me Take these tattered boxes that used to hold your clothes Break them down Build them back up with your bones All you did was construct a mess You're good to me when only flesh You're a memory with nothing to show When we would take trips We swore we'd never take pictures Pictures only prove you can't convince Now I wish those photographs could convince you that what we had would only turn out a negative well well well If fingertips are relationships then I could barely carry your weight If fingers are mistakes Don't use this one to point the blame Just sing sing I love love I love being in love I don't care what it does to me These pills are fine to pass the time 'til I find my new drug Then We'll take our chances we'll last a month we'll never speak again How I love being in love And don't pick up the line You're dressed to have a good time you don't need him, you need to be seen so someone else can treat you wrong so you my love can sing this song I love love I love being in love I don't care what it does to me These pills are fine to pass the time 'til I find my new drug Then They'll take advantage I'll claim that's what I want
