

First Weapon Of Choice

The Forsaken

Feel it, fell as it swallows you whole
The divine flames caress
The flames will lead the way
Ending you without a breath
Wrapped with elegance
The printed manifest will make the start

Trying to get back to what seems normal
Ending fast and in decay, no light I hardly see
Working to prove that I`m right
Sending the celestial gift to the first one to go

Would there be any to follow:?
Yes there will
Feel it, fell as it swallows you whole
The divine flames caress
The flames will lead the way
Ending you without a breath
Now listen what I have to say

My manifest is taking form
Simplicity, this makes them fall
See what you turned this into

I hide in the shadows of lies
Drawn characters has no resemblance
I redefine my craftmanship
Nothing like others
Corpes will be numbered
Sending the final note to the one survived
Telling that this was just a lie
Feel it, fell as it swallows you whole
The divine flames caress
The flames will lead the way
Ending you without a breath
Now listen what I have to say
Advance, my first weapon of choice
A step ahead, I make no mistakes:
