

## Injected Terror

### The Forsaken

HATE you were born with  
Feel the religious demon inside - I control you  
Slaying you from inside to out  
I'm your creating from ancient of times  
Saviour for you and beast from hell for them  
Injected with terror from the beginning of life  
Injected with terror from the beginning of...  
LIFE a struggle for life  
Continuously fed of what seems to be right  
I demand you - do as I say you will become mine  
I have written the book of their law  
A way of life becomes my own spawn  
Injected with terror from the beginning of life  
Injected with terror from the beginning of life  
I am demanding you

To become a religious demon for others to follow  
...for others to follow  
I am demanding you  
To become a religious demon for others to follow  
...for others to follow  
Now the satisfaction is fulfilled  
See their fall from my torment - from hell  
Injected with terror from the beginning of life  
Injected with terror from the beginning of... life  
Now my work is done here  
I have conquered my goals  
So long I have waited for this moment  
Finally in peace with myself  
All these years of waiting for the right moment  
A strike where it hurts the most  
And now my beliefs have been passed on  
To the next generation of religious demons
