

# Just as Long as You Need Me

The Four Tops

Now that he's gone  
You need someone to lean on  
I'll do my best  
To be that shoulder to cry on  
But I can't promise you  
You'll never cry again  
Cause everyone cries sometime

I can't promise you  
You'll never know heartaches again  
Cause everyone's heart aches sometime  
All I can promise  
Is my love to rely on

Always be here  
(Long as you need me)  
Just as long as you need me  
(As long as you need me)  
As long as you need me  
(As long as you need me)  
I'll be standing by  
(Long as you need me)

Just as long  
(As long as you need me)  
Long as you need me  
(As long as you need me)  
Long as you need me  
(As long as you need me)  
I'll be by your side  
(As long as you need me)

All I can promise  
Is to be close by your side  
Just as long as you need me

I can't promise you  
You'll always know sadness  
Cause everyone knows sadness sometimes  
Oh I'll do my very best  
To keep on giving you happiness  
In each and every day  
In every way  
Give you my shoulder to cry on  
And always be here

(Long as you need me)  
Just as long as you need me  
(As long as you need me)  
As long as you need me  
(As long as you need me)  
I'll be standing by  
(Long as you need me)

Long as you need me  
(As long as you need me)  
Long as you need me

(As long as you need me)
