

# Taking The Hard Way Out

## The Frames

Well it's over now  
And for a while you walk away  
Went over everything you might've said  
And you realise the time it takes  
And you're getting nothing done  
Just working 'round inside a tired head  
Walk on, walk on  
And go easy as you fly  
'Cause I never found a way to say it right  
And battle on as though we had the whole day  
But all we had were moments  
And I can't stand to fail

And we had the whole thing down  
And we're taking the hard way out now

Well I see you found  
What you were always waiting for  
Well I hope you're happy now  
And I can't take away from you  
This moment that you love  
I wouldn't understand it anyhow

And we have the whole thing down  
And we're taking the hard way round it now  
And we have the whole thing down  
And we're taking the hard way out  
And we had the whole day down
